

For the Record.

Nordberg HP® Series cone crushers

LOW MAINTENANCE

HIGH PROFIT

SPEED

INNOVATIVE

CAPACITY

ROI

HIGH YIELDS
PERFORMANCE

Looking to yield more finished product using fewer crushing stages — while keeping capital and energy costs down? Look to the Nordberg HP Series Cone Crushers.

Employing an innovative combination of higher speed and crushing motion, which boosts crushing capacity while optimizing horsepower consumption, the HP series crushers deliver higher crusher productivity without a proportionate increase in the size of the unit. Just what you need to increase production in a smaller space or by using fewer units.

And because of their simple design, these powerful units are easy to maintain. Excellent wear protection and fewer moving parts makes preventative maintenance quick and easy. All this adds up to more profitable, cost-effective operation — and an edge up on your competitors.
